

PRIVACY AND SECURITY POLICY All services provided on our website are provided by Cemil topuzlu Caddesi İşil apt. Etiks Turizm, Organization and Marketing Services Ltd, registered at 64/7 Ciftehavuzlar - Kadıkoy - Istanbul. the company may collect personal data for various purposes.

Below, it is stated how and in what way the collected personal data is collected, how and in what way this data is protected. Congress members various forms and surveys on the web site by filling some personal information about themselves (Name-Last Name, Company information, phone, address or Email addresses) are collected by our company due to the nature of the work.

Our company may send campaign information such as operation and reminders to its customers during some periods. The customer can make a cancellation notification via the link in the information message received to him. Our store or via e-mail in the approval process performed by, the personal information transmitted electronically to us by our customers, customers with our "Distance sales contract Service" will not be disclosed to third parties outside the aims and scope identified with. In order to identify problems related to the system and to quickly resolve any problems or disputes that may arise related to the provided service, our company saves and uses the IP address of its members. IP addresses can also be used to identify users in a general way and collect comprehensive demographic information. Our company may use the requested information for direct marketing purposes by itself or by the persons with whom it cooperates, even outside the purposes and scope determined by the Distance Service Sales Agreement. Personal information can also be used to contact the user when necessary. The information provided by the user or information requested by the company are made about the processes that information on our web site or our company, in cooperation with by the people, " as determined by the convention outside the scope of the objectives and Distant Sales Service, without disclosing the identity of our members various statistical analyses, data base creation and the research can be used in Sunday. Our company intends to keep confidential information strictly private and confidential, to consider it as my responsibility to keep a secret, and to ensure and maintain confidentiality, unauthorized use or disclosure of all or any part of confidential information to the public domain or to a third party.

CREDIT CARD SECURITY Our company keeps the security of credit card holders who make purchases from our shopping sites in the first place. Your credit card information is not stored in our system in any way. There are two things you need to pay attention to in order to understand that you are on a secure site when you enter the transactions process. One of them is a key or lock icon located on the bottom line of your browser. This shows that you are on a secure website and all your information is encrypted and protected. This information is used only depending on the sales transaction process and in the direction of the instructions you provide. The information about the credit card used during the shopping is encrypted with 128 bit SSL (Secure Sockets Layer) protocol independently of our shopping sites and sent to the relevant bank for questioning. If the card's availability is confirmed, the shopping will continue. Since no information about the card can be viewed and saved by us, third parties. The reliability of pay/invoice/delivery address information of orders placed online by credit card is audited by our company against Credit Card Fraud. Therefore, in order for customers who order from our shopping sites for the first time to reach the procurement and delivery stage of their orders, it is necessary to confirm the accuracy of financial and address/phone information first. If necessary, the credit card holder is contacted with the customer or the relevant bank to check this information. This system is an international encryption standard that cannot be broken. Internet shopping sites with an information line or customer service service and where open address and telephone information are indicated are more preferred today. In this way, you can get detailed information about all the issues you have in mind, and you can get healthier information about the reliability of the company providing online shopping services.
